I read your passage on Oscar. What everyone must understand is I knew he was not whom he alleged he was after the first meeting. He alleged he was sent by the Colombian Cardel, The Ochoa's + Herrera's to help Esteves out and so he could meet Esteves' connect. If he was sent by the Colombians why would he need Esteves connect. He already had the # connect in the world. One day he said he had cocaine for 3500, the next 15K. He offered it to me and I laughed and rejected him. He was trapped in at least 100 lies about his father and he alleged he was a hit man, but he needed me, a lawyer, to get him a gun. There was so much more. An important witness, and govt informant I needed to testify, was going to assert her 5th Amendment and refuse. She knew I told her I do not believe a word Oscar said. There's so much more. I am so saddened by the results and my heart aches.

This case would have been thrown out in Canada. You have a real and genuine system of justice. The US is corrupt, a failure of its justice system and joke.
