

I pray Vicky published the material. The U.S. Senate
Senator Dianne Feinstein released a report today on the CIA's
abuse & torture of prisoners. This has been denied since I
stood up for my soldiers in Iraq & pleaded for their
lives. They were only following Orders from the highest
levels of the White House. The government kept
denying it & trying to scapegoat my soldiers. I have
now been vindicated. The same thing with Iran
Triangle & the accusations of murder - again by my men
They obeyed orders to kill the enemy - To kill every
military aged male on the Iraqi Island of Samarra.
Then the White House crucified them. Lets see
what happens with me. They know they murdered
Iraqi General and so much more remains in my head.
